

SIVA M

B.Tech Information Technology Student

+91 9345565998

msiva0127@gmail.com

Virudhunagar, Tamil Nadu , India

PROFESSIONAL SUMMARY

Third-year B.Tech Information Technology student at J.P. College of Engineering with hands-on experience in Android and Full-Stack Web Development. Developed real-world projects including a Library Management System (Web & Android), AI-Based Timetable Management System, and Farewell Memories Website. Proficient in Java, JavaScript, Firebase, HTML, CSS, and modern development tools. Skilled in leveraging AI-assisted development techniques to accelerate software development, problem-solving, and rapid prototyping. Seeking a Software Development Internship to apply technical skills, gain industry experience, and contribute to impactful projects.

EDUCATION

Bachelor of Technology (B.Tech) – Information Technology
J.P. College of Engineering, Tenkasi
2023 – 2027

- Currently pursuing the third year of B.Tech Information Technology.
- Strong interest in Software Development, Android Development, Full-Stack Web Development, and Artificial Intelligence.
- Actively applying academic knowledge through real-world software projects and technical training programs.

TECHNICAL SKILLS

Programming Languages

- * Java
- * JavaScript
- * Python

Web Technologies

- * HTML5
- * CSS3
- * Responsive Web Design

Mobile Application Development

- * Android Studio
- * Android SDK
- * Firebase Integration

Database & Cloud Technologies

- * Firebase Firestore
- * Firebase Realtime Database
- * Firebase Authentication
- * Firebase Cloud Messaging (FCM)

Tools & Platforms

- * Git
- * GitHub
- * VS Code
- * Firebase Console

AI-Assisted Development

- * Prompt Engineering
- * AI-Assisted Coding
- * Rapid Prototyping
- * Vibe Coding

Core Concepts

- * Object-Oriented Programming (OOP)
- * REST API Integration
- * Software Development Lifecycle

PROJECTS

LIBRARY MANAGEMENT SYSTEM (Web Admin Panel + Android Application)

Technologies: Java, Android Studio, Firebase Authentication, Firestore, Firebase Cloud Messaging (FCM), HTML, CSS, JavaScript, Node.js

- Designed and developed a full-stack Library Management System for college libraries with a Web-based Admin Panel and Android Student Application.
- Implemented secure student registration and authentication using Firebase Authentication with role-based access control.
- Developed book search, department-wise filtering, book reservation (pre-booking), issue/return tracking, and availability management functionalities.
- Integrated real-time cloud database services for managing books, student records, reservations, study materials, and library operations.
- Built automated notification and alert systems for request approvals, book issuance, due dates, and library announcements using Firebase Cloud Messaging.
- Added department-wise newsletter distribution, study material access, fine tracking, and AI-powered assistant features to enhance student engagement and accessibility.
- Improved library resource management by digitizing manual workflows and providing a centralized platform for students and administrators.

AI-Based Timetable Management System (Web Admin Panel + Android Applications)

Technologies: Java, Android Studio, Firebase Firestore, Firebase Authentication, HTML, CSS, JavaScript, Node.js

- Developed a full-stack timetable management platform consisting of a Web-based Admin Panel and separate Android applications for teachers and students.
- Designed modules for managing teachers, subjects, classes, academic schedules, and institutional timetable settings through a centralized administration system.
- Implemented an automated timetable generation engine with clash-prevention logic to avoid teacher scheduling conflicts across multiple classes and departments.
- Built configurable scheduling features including working days, period duration, break management, and class-wise timetable generation.
- Integrated Firebase Firestore and Authentication for secure user management, real-time data synchronization, and cloud-based storage.
- Developed timetable tracking functionality for teachers and students with real-time updates, notifications, and schedule change management..

Senior Farewell Memories Website

Technologies: HTML, CSS, JavaScript, GitHub Pages

Project Description:

Developed a responsive farewell memories website for final-year students to celebrate and preserve their college journey through photos, videos, messages, and interactive storytelling. The platform presents four years of memorable moments using modern UI design, multimedia galleries, animated timelines, and personalized farewell content.

Key Features:

- Designed a visually appealing and responsive user interface for mobile and desktop devices.
- Created an interactive photo gallery showcasing college events, tours, symposiums, and farewell memories.
- Implemented video memory sections for displaying memorable moments and farewell highlights.
- Developed a timeline-based journey section representing the students' four-year academic experience.
- Built faculty appreciation and student message sections for sharing wishes and memories.
- Integrated background music to enhance user engagement and emotional connection.
- Added downloadable multimedia content for easy sharing and preservation of memories.
- Optimized website performance and user experience with modern animations and smooth scrolling effects.

Role & Contributions:

- Designed and developed the complete frontend interface independently.
- Implemented responsive layouts, animations, and interactive UI components.
- Organized multimedia content and structured the website for effective storytelling.
- Managed deployment using GitHub Pages for public accessibility.

Outcome:

Successfully created a digital memory platform that enabled students to revisit and share their college experiences, demonstrating strong frontend development, UI/UX design, and multimedia presentation skills.

INTERNSHIP

React.js Intern

Campus Connection | Duration: 10 Days

Responsibilities & Learning:

- Learned the fundamentals of React.js including components, props, state management, and event handling.
- Developed responsive user interface components using React.js.
- Worked with reusable components to improve code maintainability.
- Implemented basic routing and frontend application structure.
- Participated in project discussions and gained exposure to modern web development practices.
- Improved understanding of JavaScript ES6 concepts and frontend development workflows.
- Collaborated with mentors and team members during internship activities.

Key Skills Gained:

React.js, Component-Based Architecture, JavaScript ES6, Responsive Design, Frontend Development, Git & GitHub Basics.

CERTIFICATIONS & TRAINING

Online Certifications

- Generative AI Mastermind – Outskill
- Artificial Intelligence Fundamentals – IBM SkillsBuild
- Artificial Intelligence MasterClass – NoviTech R&D Pvt. Ltd.
- Full Stack Development MasterClass – NoviTech R&D Pvt. Ltd.
- UI/UX Design MasterClass – NoviTech R&D Pvt. Ltd.
- Computer Vision 101 – Infosys Springboard
- Introduction to Artificial Intelligence – Infosys Springboard
- Introduction to Deep Learning – Infosys Springboard
- Introduction to Natural Language Processing – Infosys Springboard
- Introduction to Data Science – Infosys Springboard
- Introduction to Robotic Process Automation – Infosys Springboard
- Continuous Integration and Delivery (DevOps) – Infosys Springboard
- Introduction to Agile Methodology – Infosys Springboard
- Customer Engagement: Problem Solving and Process Controls – IBM SkillsBuild
- Customer Engagement: Communication and Personality Dynamics – IBM SkillsBuild

Offline Certifications & Training

- Hands-on React.js Training (React + Vite + MERN Stack) – Campus Connection, 10-Day Training Program
- Android App Development – Value Added Course, CADD Expert Training Institution
- Android App Development – Value Added Course, Vinsup Academy / Vinsup Infotech
- Zoho Creator Student Training Program – Zoho Creator Young Creators Program
- Green Skills and Artificial Intelligence Foundation Course – Edunet Foundation, AICTE & Shell Skills4Future Program

WORKSHOP & TECHNICAL EVENT

- * Participated in Project Expo – NEXGEN AI'26 National Level Technical Symposium, Ramco Institute of Technology
- * Participated in APPATHON – TEXPERIA 2026, SNS College of Technology

ACHIEVEMENTS & AWARDS

- First Prize Winner – APPATHON 2026, TEXPERIA'26 Technical Event conducted by SNS College of Technology, Coimbatore. Secured 1st Place and received a cash prize of ₹5,000.
- Department Winner – Techathon 2026 Project Expo, J.P. College of Engineering. Won 1st Place in the Information Technology Department and received a cash prize of ₹3,000.
- Participated in Project Expo and Technical Innovation Events, showcasing software development and problem-solving skills.

CO-CURRICULAR ACTIVITIES

- Participated in APPATHON 2026 conducted at SNS College of Technology, Coimbatore.
 - Presented software projects in Techathon 2026 Project Expo at J.P. College of Engineering.
 - Completed Hands-on React.js Training (React + Vite + MERN Stack).
 - Completed Android App Development Training Program.
 - Completed Zoho Creator Student Training Program.
 - Participated in Green Skills and Artificial Intelligence Foundation Course under AICTE Skills4Future Program.
 - Earned certifications in Artificial Intelligence, Deep Learning, Computer Vision, Data Science, Natural Language Processing, and DevOps through Infosys Springboard and IBM SkillsBuild.
-

EXTRA-CURRICULAR ACTIVITIES

- Contributed to the development of a Farewell Memories Website for final-year students.
 - Actively participated in college technical and cultural events.
 - Collaborated with peers in team-based projects and event activities.
 - Assisted in organizing and documenting student activities and academic events.
-

SOFT SKILL

- Problem Solving
 - Team Collaboration
 - Adaptability
 - Quick Learner
 - Time Management
 - Critical Thinking
 - Leadership
 - Attention to Detail
 - Self-Motivated
-

INTERESTS

- Full Stack Web Development
 - Mobile Application Development
 - Artificial Intelligence & Machine Learning
 - UI/UX Design
 - Video Editing
 - Problem Solving
 - Exploring Emerging Technologies
-

LANGUAGES KNOW

- Tamil – Native / Fluent
 - English – Professional Working Proficiency
-
